

Take-aways from the Workshop „Erasmus+ spirit in challenging times“

- Organisations found creative solutions to keep the Erasmus+ spirit alive, e.g. virtual coffee breaks with international partners, creation of Instagram channel with FAQ-session regarding internships abroad.
- The pandemic is a tough challenge for international partnerships and mobilities in VET. Therefore exchanging virtually and sharing ideas with partners and other sending and hosting organisations is very important and valuable.
- The Future Erasmus+ programme will offer great chances for institutional, personal and professional development, foster internationalisation and stable funding.

How did you feel these past months concerning your role and contribution to the Erasmus+ spirit?
